

4452

Photoelectric smoke detector

Features

- › State of the art detector for highest safety.
- › Nuisance alarms reduced by up to 46% by using variable sensitivity and time delay based on smoke changes just before and after fire alarm level has been reached.
- › High-tech mesh net prevents dust and insects to enter the detection chamber.

General

- › Tested and approved according to EN54-7
- › VdS: G213028
- › CPR: 0786-CPR-21252
